

Release Notes — v1.1.1

Features

- Show version on aia_doc front page
- Add PWM_CTRL_COMMAND_INPUT mode and change default to analogue input
- Multi-subscriber RX notification with per-port filtering

Fixes

- Grant copilot-requests permission for release-notes job
- Provide Copilot token to release-notes workflow step
- Reduce startup TX delay and reset heartbeat timer on comm...
- Enable J-Link semihosting so librdimon BKPT calls don't halt vscode debugger
- Rnet destbox must be 396 for blog communication
